**Report on: World Environment Day**

**Event Date: 2nd June 2022**

***“Let’s nurture the nature so that we can have a better future.”***

***In the universe are  
billions of galaxies,  
In our galaxy are billions  
of planets,  
But there is  
#OnlyOneEarth.  
Let’s take care of it.***

The World Environment Day calls for transformative changes to policies and choices to enable cleaner, greener, and sustainable living in harmony with nature. It focuses on the need to live sustainably, and our possibilities for shifting to a greener lifestyle through both policies and individual choices.

It was established in 1972 by the United Nations at the Stockholm Conference on the Human Environment that had resulted from discussions on the integration of human interactions and the environment.

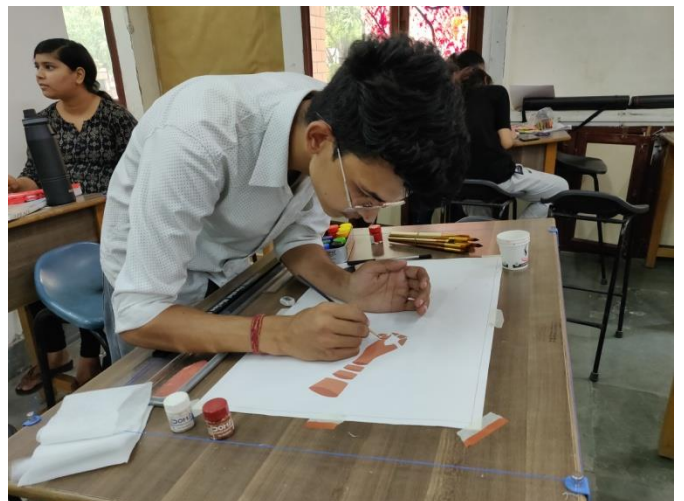

MBS SPA extracurricular team hosted an Offline Event of Poster making competition in college campus. All the first year students took part in the event. The main intention of celebrating this event is to create awareness and bring out students creativity. Through this competition, students are required to make posters on World Environment Day along with a **small caption** of not more than **20 words**. After back-up preparations, floated the competition to all the first year students of MBS SPA on 2nd June 2022 in college campus.

Students have showcased their creativity & entries were sent to the panel of judges for the judgment. The result of the competition was declared on 4<sup>th</sup> June 2022.
