

Event Name - Humayun Tomb Photowalk

Date: 25th June 2022

Venue: Humayun Tomb

Batch: 1-4th yr

Coordinated by/ Resource Person - AR. Sudeep Deb and Shreshth Sharma

Description

- Topics Covered:

The Abhivyakti Photography Club hosted a photo walk on 20th June, 2022 to a crown jewel in the heart of India's capital city, New Delhi – The Humayun's Tomb.

Tucked behind a façade of thick stone walls lies the tomb, a magnificent edifice in red stone, the pathway to which is lined with trees amid sprawling manicured lawns, and the structure which unfolds before the eyes has a semblance to India's most recognizable and quintessential wonder – The Taj Mahal.

Albeit the scramble, the hustle-bustle, and chaos of this metropolis packed with 14 million people, the Humayun's Tomb offered the visitors an all-together serene experience as one walked into a time warp of the Mughal era.

- Students learning from the exercise:

The students who explored the sprawling complex of the garden tomb which personifies the Mughals, filled their frames with essence, energy and moments from the walk to the mausoleum. The photo walk manifested the Light and shadow theme, in the rightful words of Gregory Maguire, "The eye is always caught by light, but the shadows have more to say".
