

# Celebrating 50<sup>th</sup> Anniversary of Earth Day -2020

The sky tonight amazed me,  
I saw something which I have never seen  
Years passed away with starless nights  
Who thought a virus would make us see  
such an amazing site!

The air is cleaner and land is green  
Rivers look like an arch of silver sheen  
It's time to realise the signals nature sent,  
and bring a change before we repent.

helping hand!  
You can save water ,and plant a tree a  
better home for you and me. Recycle things  
Don't throw away

Due to covid 19 everyone said that we

should wash  (hands),

vegetables and fruits  as much  
as possible. But we should never

forget to conserve water  . We  
have already started noticing water  
shortages in most areas on the planet

earth  .A good eco-friendly habit  
is to conserve water and save as  
much water as we can. Water  
wastage must be avoided. Few ways  
to conserve water are –  
We should close the tap while rubbing

soap  .  
Wash fruits and vegetables in a bowl

later water can be used for

watering the plants   .

## MOTHER EARTH

Oh wonderful mother Earth,  
Every glimpse of yours is watching worth.  
Your trees offer us shade,  
Your debts to us can never be paid.  
The water flowing beneath your feet,  
is cool, chaste and sweet.  
Your air is the breathe of life,  
Because of which the living kingdom is alive.  
Your fruits are a pleasing delight,  
Its juicy flavour comes with every bite.  
The mountains are the snowy paradise,  
Its beauty never let the mind suffice.  
You are the one who gave us birth,  
Oh wonderful mother Earth!
