

ISA ACTIVITY - SCIENCE

ISA activity (Science activity) was conducted in the classes VI, VII, VIII and IX through google meet in the second week of July.

Brainstorming session was conducted in which the students were shown a ppt and instructions of the activity was shared. Students of classes VI, VII, VIII and IX were then shown videos on Climate change in India, UK, UAE and Australia. They enjoyed the videos and class discussion on the same was done. Students of these classes then attempted quiz related to the videos on google form.
