

ISA (English) Animation Movie

Students of grades VIII, IX and XI of SVISG in collaboration with students of the Animation Club of the school created an animated movie on the theme 'Emotions' as part of the ongoing ISA Project (English.) The topic chosen by them was 'Corruption and Nepotism.'

Under the guidance of their teachers, students watched some animated movies on You Tube together and discussed the theme and the technicalities of this activity. While creating the movie, they learnt skills such as forming an effective storyboard, organizing ideas and incorporating each others' suggestions, collaborating and planning meetings on Google Meet and Zoom, production quality, editing, video continuity, animation, graphics and much more. The lockdown and the virtual sessions gave them yet another opportunity to hone their skills in video making. The outstanding animated movie was uploaded on You Tube and appreciated by everyone.
