

## Student Workshop - 'Compost Pit Making'

On 17<sup>th</sup> October 2017, a workshop was organized for the students of classes 6, 7 and 9 on the topic 'Compost Pit Making'. The resource person was Dr. Kalpana Arora (the Program lead and an active Researcher with CTD/SESS working in the area of Agriculture, Agro-products processing, waste management, climate change and rural development. She is Ph.D. from IIT Delhi with expertise in utilizing the efficient bio-inoculants in the field of rapid composting, plant disease management and soil quality enhancement.)

A Power Point presentation was shown to the students This was followed by interactive session of the resource person with the students. Certain queries of the students were also clarified during this workshop.

After this in the second phase Compost Pit making was demonstrated to the students (of Class 9) in the school campus lawn. The students had a wonderful learning experience.

Overall it was an informative workshop facilitating experiential learning and sensitivity towards waste management and sustainability of the environment.
