Dear parents and students,

COVID - 19 has resulted in schools shut all across the world. Globally over 1.2 billion children are out of the classroom. As a result, education has changed dramatically, with the distinct rise of e-learning whereby teaching is undertaken remotely and on digital platforms. "The anxious and unusual times bring unforeseen difficulties but the best of human nature can rise to the challenge".

We all have within us the strength, the patience and the passion to reach the stars to change the world. Let's not fear change; embrace it. Life is all about moving on, accepting changes, looking forward to what makes us more adaptable and stronger. During this Summer break of June 2021. Let's not forget that this year also vacations are not meant to explore the world outside but present an opportunity to rediscover ourselves while staying home and being safe.

Summer vacation has always been considered to be the most desirable period looked forward by children when they can go beyond academics but let's not make it a challenging situation clouded with the gloominess of current pandemic. So, embark on a journey of fun and adventure by reading books, exercising, meditation, dancing and channelizing your energy in a positive manner. In addition maintain the momentum and rigour that has been built in the learning through the last few weeks.
