

IMPORTANCE OF EDUCATION

*“Never stop learning
because life never stops
teaching”*

Education is one of the blessings of life and one of its necessities. We must work not wait. Not just the politicians and the world leaders. We all need to contribute. It is our duty. We realize importance of light when we see darkness. We realize the importance of our voice when we are silenced in the same way when we were in swath we realize the importance of books

and pens. The countries which we call strong are so powerful in creating wars but are so weak in bringing peace. Why is it? That giving guns is so easy but giving books is so hard. Why is it? That making tanks is so easy but building schools is so hard. One child, one teacher, one book and one pen can change the world. Education is only solution. Swami Vivekananda defined education as the manifestation of perfection already existing in men. As Dr. Seuss said that the more you read, the more things you will know, the more you learn the more places you will go. Mankind is born with the natural thrust for knowledge; this thrust is quenched by education. It is the treasure that everyone deserves but not all receive, those

affected by poverty are the most important part of this group, women are a community that have been denied education so long in the past years but now the condition has improved.

*“Work hard in silence,
let success make the
noise”*
