

DELHI PUBLIC SCHOOL MARUTI KUNJ

COMMUNAL HARMONY

In order to celebrate communal harmony week, song and skit competitions were organised in the last week of December. Students participated in Regional Song Competition and brought the essence of each region alive by not only singing the songs but also wearing the unique costumes and depicting the culture of the area. It looked like as if the whole India got together under one roof.

In the Inter House Skit Competition based on Communal Harmony, the students chose excellent stories for depicting the oneness in diversity. The message was quite clear that we all are Indians and no cast or religion or any other reason could separate us. It is very blissful to see the future of our country not being bothered about these differences and rising above everything to spread the message of fraternity.
