

GLOBAL LIBRARIAN'S AWARD, 2021

REPORT

I am happy to share with you that I received the most Prestigious Global Librarian's Award 2021 on 29th August, 2021 with my co-awardees from 8 countries in a Virtual Ceremony by AKS Education Award. I got this prestigious Global Librarians award in recognition of outstanding contribution towards education in the field of library science especially during this pandemic time.

I express my gratitude to the almighty, my colloquies, my family, my department, and DPS, MK school management. I attribute my success to the diligence of my school Principal and his accommodating nature. I dedicated my award to my school DPS, Maruti Kunj.

Appreciation and recognition are the two very important and major factors of employee motivation to keep striving towards their goals at work.

Here, I would like to appreciate the wonderful worldwide initiatives of team AKS Education. I think this is the first time when someone is giving international recognition to library professionals.
