

Visit of Jennifer Star, OAM

Date- 9th March, 2023

Venue- ITL Public School

Guest- Jennifer Star, OAM, Director Asia Education Foundation

Furthering collaboration in education and research with the Asia Education Foundation under the Australia India VET Connect Program, ITL Public School had the privilege of hosting Ms. Jennifer Star OAM, Director, Asia Education Foundation at Asialink, on 9th March, 2023.

Keeping the intense need to inculcate an entrepreneurial mindset and critical-thinking abilities as the centre for futuristic growth, students of ITL Public School proudly displayed 14 indigenous, herbal organic products under the brand name 'Anthelia'- the schools' start up initiative. This campaign started almost a decade ago has taken a proportion of a mini real world experience involving students across all classes and streams taking them through processing, marketing, advertising & pricing all under one roof. With indigenously sourced ingredients, the students demonstrated an array of processes involving in preparing of Herbal Hand Sanitizer, Herbal Mosquito repellent, herbal Floor & window pane cleaners, Room Freshener, Disinfectant Spray, Analgesic Bath Salt, Face Pack, Scrub and Serum, among others.

Bringing the importance of millets in classroom & turning all stones to realise 2023 as the International Year for Millets, the Home Science lab showcased cooking and kitchen as healing food platform through the preparations of millet based cuisines & handmade chemical free everyday edibles. Communication skills are an integral part of 21st century skills which are honed to perfection in the School's Language Lab equipped with state of the art infrastructure. Students displayed the methodology used for the same.

ITLLeens also exhibited their expertise and passion to imbibe sustainable fashion, circular economy and LiFE at the Fashion Studies and Home Science labs. This was manifested in activities like Tie and Dye, Jute Bags, Block Printing, Paper Quilling, Pickle making, preparing layouts of 'Dream House', etc. To celebrate the International year of Millets, students presented various handmade millet products.

Commitment towards Sustainable Development Goals and Innovation were clearly exhibited at the Tinkering Lab. Prototype of Apps like 'Neurodivergence' (SDG 10), 'Ecoscore' (SDG 12), and many start up ideas were explained in detail.

In a nutshell, the visit of Ms. Jennifer Star, OAM marked another milestone in strengthening the association with the Australia India VET Connect Program and Asia Education Foundation. Way to go ITL..!
