**"Manners are a sensitive awareness of the feelings of others. If you have that awareness, you have good manners, no matter what fork you use." *Emily Post***

To develop table manners among students in life, the Entity Club of MBS International School conducted a class activity "Table Manners" on April 26, 2023.

Table manners play an important part in making a favourable impression. They are visible signals of your manners and, therefore, are essential to professional success. They leave a lasting impression. Students gained knowledge on how to sit properly at the table, start a meal, and hold the cutlery in the most appropriate way.

The facilitator explained how to make use of a table mat, napkin, and apron before starting a meal. Students were very curious and happy to learn how to use a fork and knife smartly to apply butter to bread and how to have soup while sitting at the dinner table. Everyone's participation was monitored very closely, ensuring that they grasped the concept of table manners very clearly.

In addition to teaching children proper table manners, this activity also molded their personalities.
