Fun Filled Activities for Summer Vacations

Dear Parents,

We have made an attempt to keep our students creatively busy during the summer vacations. It will help them keep in touch with the concepts taught in class.

Involve your daughter in the following fun-filled activities.

1. Children learn best when they are active participants, so plan a schedule to be followed by your daughter during the holidays.
2. Collect four different types of flowers and leaves (of various sizes) -dry and paste them on separate sheets. Help her to identify and learn their names.
3. Play educational games with her.
 4. Encourage your daughter to develop good habits and etiquettes.
 5. Let her watch only those programmes on TV which are appropriate for her age.
 6. Involve your daughter in picture reading.
7. Try to tell as many interesting stories as possible that will improve her language and will enhance her vocabulary. Help her to narrate her favourite story in English (explain her the moral of the story).
8. Encourage her to converse in English.
9. Guide your daughter in performing the weekend cleanliness tasks as mentioned in the Student's Diary (Page no. 20 & 21)

Story telling is the most powerful way to put ideas into the world.

Here are a few links of short stories for your children to inculcate good habits and moral values.
