What must education teach?

True Learning

Education is not only learning from books, memorizing some facts, but also learning how to look, how to listen to what the books are saying, whether they are saying something true or false. All that is part of education.

Education is not just to pass examinations, take a degree and a job, get married and settle down, but also to be able to listen to the birds, to see the sky, to see the extraordinary beauty of a tree, and the shape of the hills, and to feel with them, to be really, directly in touch with them. As you grow older, that sense of listening, seeing, unfortunately disappears because you have worries, you want more money, a better car, more children or less children. You become jealous, ambitious, greedy, and envious; so you lose the sense of the beauty of the earth.

Since you are young, fresh, innocent, can you look at all the beauty of the earth, have the quality of affection? And can you retain that? For if you do not, as you grow up, you will conform, because that is the easiest way to live. As you grow up, a few of you will revolt, but that revolt too will not answer the problem. Some of you will try to run away from society, but that running away will have no meaning. You have to change society. Society is you and I. You and I create the society in which we live. So, you have to change.

Our School

The Air Force School (TAFS) was established in temporary wartime hutments at Wellington Camp, Club Road, New Delhi on 18th July 1955 with the aim of providing comprehensive modern education to children of personnel of the Indian Air Force. In May 1967, the school shifted to its present Aravali Campus at Subroto Park, New Delhi. The school celebrated its Silver Jubilee in 1980 when the word "Central" was dropped from its name. The school celebrated its Golden Jubilee in the year 2005.

The School is situated on the Aravali ridge - amidst picturesque surroundings - lined by rows of majestic Eucalyptus and Ashoka trees. In the 15 acre area of the school, there are numerous varieties of Bougainvillea, ranging from the common Magenta to the rare lovely Mary Palmer which blossom throughout the year.

Although the school was established primarily for the benefit of children belonging to the IAF personnel, it has always been open towards of Army and Navy personnel as well as to Civilians. Thereby it satisfies a long felt need of the Air Force personnel and simultaneously provides quality education to a much wider spectrum of children, from all over the country.

The Air Force School is a co-educational public school with boarding facilities for boys of classes VI to XII.

The school is affiliated to the Central Board of Secondary Education and is a member of the Indian Public School Conference (IPSC) and the National Progressive Schools Conference (NPSC). The school has been declared ISO certified in the year 2007.

“A fit body, a calm mind, a house full of love. These things cannot be bought – they must be earned.” – Naval Ravikant

Dear Students,

In the journey towards being our best selves, we often get engrossed in the outwardly measures of success and forget the most valuable of all treasures bestowed upon us; our health.

To make any meaningful contribution to the society, it is our responsibility to treat this blessing with utmost respect and nurture it. The best way to ensure that is creating an atmosphere that develops immunity.

Immunity of the Mind, Body and Spirit.

After all, a well - rounded individual is a gift to humanity!

Small steps everyday compound to life-changing results in the long -run; start with making physical activity a non-negotiable part of your day. Exercise not only builds physical immunity but induces mental clarity which can be enhanced with practices like meditation that build mental immunity.

Finally, the creation of a positive atmosphere is incomplete without strong social (spiritual) immunity. Welcome positive and encouraging voices into your inner circle and steer clear of negativity in people, actions or otherwise.

With this, I invite you to embark on a life-changing path and reach your highest potential.

*Love and fond regards
Your Headmistress*

Guidelines for Parents

Parents are equal partners in education. Without their cooperation the school can achieve little on its own. Here are a few ways in which parents can contribute:

1. Regularity and Punctuality

- ◆ Regularity and punctuality are intrinsic part of school discipline as they help to develop a healthy respect for work and study in children.
- ◆ Attendance at school is therefore compulsory except in cases of illness or special circumstances.
- ◆ Children must strictly adhere to the school timings and reach school by 7:55 am on all working days.
- ◆ Please do not pick up your ward from school before cease hours.

2. Leave of Absence

In case your ward is required to take leave, the request is to be conveyed to the Class teacher either through Parent Portal or as an email sent to the school e-mail address. The hard copy of the leave application also could be submitted at school. If the leave is on medical grounds, medical certificate should be attached with the application. Also note that WhatsApp will not be considered as an official means of communication.

3. School Diary

Ensure that your ward brings the diary to school everyday.

- ◆ Encourage him/her to note down the assignments carefully and regularly in the diary. Check the diary regularly for any entries/circulars from the school.
- ◆ The diary may also be used by the parents for communicating with the teachers.
- ◆ Read the contents of the diary carefully and sign the notes, if any, written by the teacher.

4. Home Assignments

Regular home assignments are given to students to reinforce learning at home. These also help to inculcate good study habits among students.

Parents must ensure that their ward is regular in doing these assignments neatly and on his/her own. Please encourage the child to submit it on time.

5. School Bags

We advise you to instruct your child to pack his/her school bag as per the days' timetable. Please ensure that your ward does not carry excess books/ materials and follow the teacher's instructions while packing the bag.

6. Healthy Eating Habits

All students are expected to bring proper tiffin and a water bottle. It is advisable to send healthy tiffin (green vegetables, seasonal fruits etc). Restrict intake of junk food. Pizzas, burgers, chips, french fries, salad dressings, samosas, tikkis and cookies/biscuits contain high salt content and saturated fats which harm the body.

7. Parent Teacher Meeting

Parent Teacher Meetings should be utilized as a platform to interact with the teachers to be well informed regarding the academic progress and behaviour of the child. The schedule for these meetings is mentioned in the school calendar. However, parents are also informed about the Meeting through SMS/message sent by the school.

8. School Uniform

School uniform is a discipline in itself and should be adhered to by all students.

- ◆ Please ensure that your child is wearing the correct school uniform and is neatly turned out.
- ◆ Polished shoes, a neat hair-cut, trimmed nails are desirable as important.

9. Medication

Parents must inform the class teacher, in writing, regarding the details of any medicine that their child needs to take regularly or if he/she is allergic to any drug.

- ◆ Do not send your child to school in case he/she is suffering from an infectious disease like chicken pox, mumps, conjunctivitis etc. This will save others from ill health.
- ◆ Any child reporting SICK will not be allowed to attend the school under any circumstances.
- ◆ Please do not drop your child to school after a visit to the hospital/dispensary.

10. Hobbies

- ◆ Guide your child to cultivate a hobby like playing a musical instrument, drawing, painting, reading, playing a game or a sport.
- ◆ Please encourage reading habit in your child. Curtail the T.V. viewing hours of your ward. Watch informative channels like Star Sports, Discovery, National Geographic, Animal Planet, Times Now, CNN-IBN, BBC, and CNN among others, with your child.
- ◆ Watch such programmes together as a family and hold discussions on the same.

11. Responsibility

- ◆ Your ward should be instructed to be careful about his/her possessions.
- ◆ Instruct him/ her to take care of his/her things.
- ◆ Kindly put a name tag on your child's belongings.
- ◆ Expensive articles should not be brought to school.

12. Manners/Behaviour

The child is a mirror of his/ her home.

Respect for others, following rules and politeness of speech are first learnt at home.

- ◆ Be particular about good behaviour and a

refined language.

- ◆ Teach your child to value money. Do not indulge your child by giving pocket money liberally.
- ◆ Criticising a teacher or the school in the company of a child is undesirable. It reduces the respect a learner should have for his teachers.
- ◆ For the benefit of your child if you notice any changes in behavior or/and academics, kindly bring it to the notice of the class teacher and the counsellor.

13. Safety on the Road

The safety of your ward in and around the school is of utmost concern to us. Parents are requested to kindly educate their wards on the safety rules and explain the repercussions of not adhering to these rules.

14. Change of Address and Contact Numbers

It is very important that you inform the class teacher and office immediately if there is a change in your address and / or telephone numbers, so that we can contact you easily in an emergency.

15. Correct Study Habits

Correct study habits need to be imparted at an early age.

- ◆ Ensure that your ward is regular in submitting his projects and assignments.

Follow-up Activities / Home Assignments

Homework assignments not only give parents an insight into the school curriculum but also offer a greater opportunity for parent child participation in the child's education. We, at TAFS, design assignments, which are activities that the children would look forward to doing. Thus, these home work assignments make learning interesting and fun filled for students.

1. Home assignments/follow up activities will be given to classes I-II.
2. The schedule for home assignments for classes III to V is as follows:

Days	SUBJECTS
	Classes III - V
Monday	English

School Assembly

The school assembly is an integral part of a school curriculum. It helps to inculcate discipline and enhance personality development of the children. Classes UKG-II will have assemblies on Tuesdays and Wednesdays whereas Classes III-V will have it on Thursdays and Fridays. On all Tuesdays and Thursdays we will have mass PT during the assembly

Menu for the Junior School

To create positive learning opportunities in the classrooms in our school, we have integrated NUTRITION and academic activities.

The importance of sound learning and nutritive food has been established long time ago. A healthy mind resides in a healthy body. The nutritional requirements of young children, who are always involved in physical and intellectual activities at school, can be met only by taking special care of their food habits. Children also have varying appetite and food preferences. Keeping all this in mind we have created a "BREAKFAST MENU" for children of Junior School. The menu includes dishes rich in nutrients and also provides a variety in colour, taste and flavour. We have given a varied choice of food items for each day of the week which the children will carry in their tiffin.

A circular will be put up on the website when the events are finalised.

Heritage walks / visit to monuments / museums are organized for classes III to V.

Activity Days (UKG to V)

All working Saturdays will be Activity Days for students. Different activities for development of language skills, number skills, confidence, creativity, team spirit and many other life skills will be planned for Saturdays.

When the school bell rings continuously for 2 minutes it's a signal that disaster has struck and evacuation is required.
