### **Content:**

When it comes to working towards making a wise and healthy career choice, creating an attractive profile is the first step in this process. It's a methodical, logical, exploration grounded system of achieving our Academic and job based aspirations. With this intent JM International School, Dwarka organised a workshop on interdisciplinary approach and subject selection under NEP which discoursed about career counseling and openings in varied fields for the Scholars of class 10th. The morning session began with a welcome note of the dignified resource person from CCD, Mr Vikram soni.

He explained the students about the importance of strong profile and the important points they all should keep in mind while building their CV. The workshop was completely based on awareness among students of class 10th, vast choices they have and how to go about them.

It talked about following points:
