ITL PUBLIC SCHOOL

Summer Engagement Program 2023-24

Class XI : Subject- Web Application

Mr Shikhawat, owner of "**Zoya Tour and Travels**" wants to start with online services for his company. As an IT head of his company he has assigned you the task of creating a website containing at least five pages showing different packages for Lakshadweep, Andaman & Nicobar Islands.

Following points should be taken care:

1. Website should highlight different features of the above place like its cultural heritage/festivals/food etc

2. Website should show different packages like 2 Days 3 Nights , 3 Days 4 Nights etc

   On selecting a particular package

   → Its itinerary should be displayed.
   → respective airlines and their fares should be displayed
   → At the end a form should be filled by visitor for his requirements.

3. All the pages should be well formatted. Use maximum features of html. Try to include news clips, images wherever possible.

4. Take a printout of code as well as the webpages and file it in a hard bound drawing file.

5. Also Soft copy (both code and webpage) should be uploaded in the google classroom , code : dvugbm2
