

ITL PUBLIC SCHOOL
Summer Engagement Program
FASHION STUDIES
CLASS XI

1. "Green" fashion design project: Students can choose a sustainable fashion designer of their choice and create a report on their work. Analyze their business model, marketing strategies and use of sustainable material and practices. They can include examples of sustainable fashion designs from the designer's collection.
2. Design a unique logo that represents your personal brand and aesthetic within the fashion industry.
3. Using the knowledge of colour wheel and various colour schemes, create four beautiful floral designs using any four colour schemes.
4. Design a visually appealing cover for your fashion file that reflects your unique sense of style and creativity.
