

# NATURE PHOTOGRAPHY DAY

**CLASS: VI- XII**

**DATE: 15<sup>TH</sup> JUNE 2023**

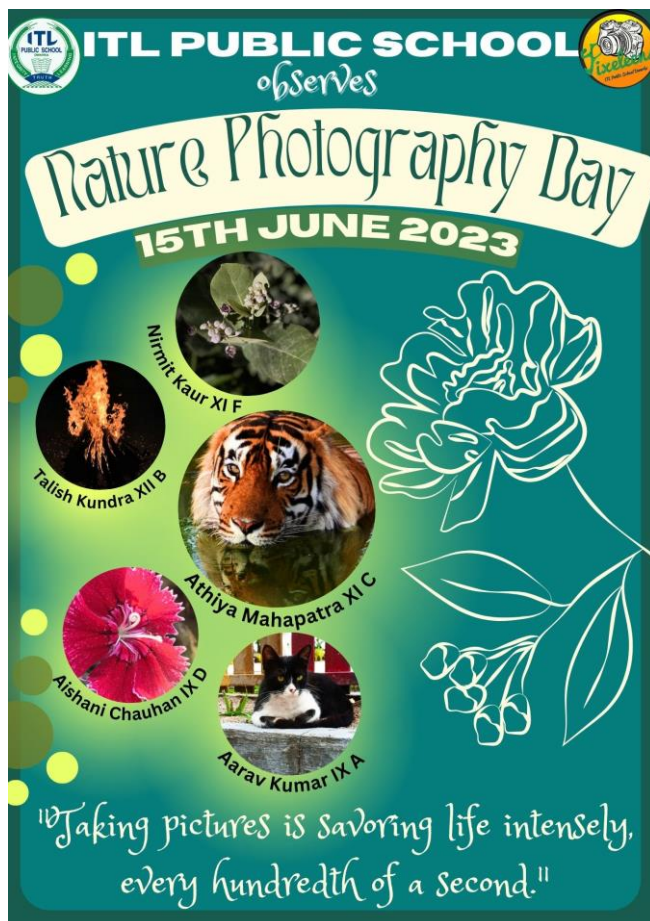

*“Keep the love of nature, for that, is the true way to understand art more and more”*

*-Vincent Van Gogh*

The Nature Photography Day is celebrated on 15<sup>th</sup> June to highlight the beauty and significance of nature through the art of photography. It encourages people to connect with nature, capture its wonders, and raise awareness about environmental conservation. It's a day to celebrate the power of images in showcasing the awe-inspiring landscapes, wildlife, and ecosystems that surround us.

To honour this day, **PIXELEENS- the photography club of ITL Public School** features the versatility and adaptability of nature in a video presentation, highlighted through the "*Life Finds A Way: Nature in Unlikely Places*" segment.

The second segment, "*Appreciating the Fauna Around Us*" entails pictures of animals photographed in the Capital city to showcase it's serendipitous natural beauty which often goes overlooked.

# NATURE PHOTOGRAPHY DAY

LIFE FINDS A WAY: NATURE IN UNLIKELY PLACES

## WHY DO WE CELEBRATE IT?

Nature photography day is celebrated every year on 15th June, to spread awareness about the significance of nature. Its main objective is to help people appreciate the beauty of nature and to inspire people to step out, discover and capture the environment around us.
