

## **WORKSHOP FOR STUDENTS**

**SESSION: 2023-2024**

**THEME/TOPIC: Fire Safety and Disaster Management**

**RESOURCE PERSON(S): Ms. Dinky Mehta & Ms. Pooja Monga**

**ORGANISED BY: MBS International School**

**DAY & DATE: Wednesday, 09 August 2023**

**DURATION: 1 hour**

**VENUE: School Auditorium**

**ATTENDED BY: Class IV & V Students**

### **Objectives: -**

- To provide students with education and training to respond effectively to unforeseen emergency situations characterised by sudden onset and minimal warning indicators.
- To enhance participants' knowledge, skills, and awareness about fire safety practices and general disaster management principles.

**"In the face of disaster, preparedness is the key to survival." - Bruce Lee**

In the ever-changing landscape of our world, the importance of fire safety and disaster management cannot be overstated. As concerns regarding safety grow for individuals, communities, and organisations, MBS International took a proactive step by organising a workshop titled 'Fire Safety and Disaster Management'. This workshop aimed to provide a comprehensive understanding of essential practices, preparedness plans, and effective responses to mitigate risks, ensuring the protection of lives and assets.

The workshop was conducted by Ms. Dinky Mehta and Ms. Pooja Monga and took place in the school auditorium focusing on imparting valuable knowledge to these young learners of Class IV and V.

It commenced with a detailed explanation of the various causes of fires and how they spread. Students gained insight into the science behind fire and how it can quickly become dangerous. In addition to fire safety, the workshop also touched upon various natural disasters. This expanded the students' understanding of potential hazards and the importance of being prepared for any emergency. A captivating PowerPoint presentation was used to share essential preventive measures against fires and other disasters. This included safety protocols to follow at home, school, and in public spaces. Students were encouraged to ask questions and share their thoughts, creating a dynamic learning environment.

The 'Fire Safety and Disaster Management' workshop proved to be an educational and empowering experience for the students of Class IV and V. This endeavor aligns with the mission to create a safer environment for all and equip the youth with the tools they need to make informed decisions in times of crisis.
