

VISIT TO MUSEO CAMERA CENTRE FOR THE PHOTOGRAPHIC ARTS

CLASS: IX- XII

DATE: 19TH OCTOBER 2023

"Camera Museum: Where history meets inspiration through the lens."

Pixeleen, the Photography Club of ITL Public School, embarked on a captivating expedition on 19th October 2023 to **Museo Camera**, an Indian treasure trove for photography enthusiasts. This unique space spans an impressive 18,000 sq. ft., making it the largest not-for-profit crowd-funded Center for Photographic Arts in South East Asia.

During their visit, the students explored an extensive collection of *vintage advertisements, historic patents, and photography curiosities dating back to the 1880s*. Museo Camera's expert panel organized engaging workshops and discussions on both the history and contemporary practices of photography, offering a well-rounded perspective on this art form.

As a delightful hands-on experience, the students also delved into *Cyanotype printing*, a creative craft that blends science and art to create mesmerising artworks. Museo Camera left an indelible mark on our budding photographers, igniting their passion for the world of photography and creativity.
