

Zonal Level Science Exhibition

The Zonal Level Science Exhibition was held on 5th December 2023 at S.K.V. Rajokri. The theme for the event was "Science and Technology for society". A total of 27 schools participated in the exhibition, showcasing their innovative and creative projects related to the theme.

Our school secured the third position in the competition. The participants from our school, Samaira Saied and Varnika R from Class X B, showcased their exceptional project which impressed the judges.

The event was a good platform for students to explore and exhibit their scientific knowledge and creativity. It provided them with an opportunity to learn from each other and gain exposure to various scientific concepts and ideas.
