

REPORT OF INTER-CLASS ACTIVITY
NAME OF THE ACTIVITY: TANGRAMMING: TANGRAM CREATIONS
SESSION - 2023-2024

Tangrams were invented in China 200 years ago. It is a two- dimensional re-arrangement puzzle created by cutting a square into seven pieces called tans.

Tangram puzzles are intended as a useful way to develop spatial skills and visual orientation skills. With superb versatility and emphasis on creative problem-solving, they can be an excellent learning device for students. With the same objective, Tangram Creations activity was organised for the students of Class III on 29 November 2023. During the activity, students tried to make pictures of different animals, objects and letters. This fun-filled activity gave students an excellent opportunity to test out different manipulations of shapes.
