Circular

Date: July 18, 2023
DPSKP-V/2023-24/Circular/65

Dear Parents,

Greetings!

Google wishes to invite the students of classes 2nd to 6th to a Google Certified coding workshop on 'Making Interactive Stories using Codes'. The workshop can be taken by students, with or without prior computer knowledge. Every participant who completes the workshop and finishes the assignment will get the certificate from Google.

Google has developed kids programming workshop that allow kids, teens, and young adults to learn how to code at all ages with proper coding classes and in an environment that works for them – Online. Their courses teach kids to code with core programming skills, and then improve the proficiency of the kids coding languages.

The facilitators of Google align digital literacy into coding courses, as required by the existing skills of the learners. Since the curriculum is developed by Google experts and the most important activity of teaching coding is done by the top 1% selected teachers, learners get state-of-the-art education in this workshop.

The details for attending this workshop are:
Date: 18 July, 2023
Time: 8:30 PM IST
Fee: Free
Location: Zoom
Certificate: Participation Certificate by Google to all students

Students can book their seat in advance using the link given below:
https://us06web.zoom.us/meeting/register/tZ0kd-igrj4jE9Kbcp1fIdse6oiQlu_hp1Po

Meeting Id : 899 0180 5996
Passcode : 827660
For any help, the students can dial +971-527809450

Outcomes/Objectives of The Workshop:
Students will create a new story, or take an existing one, and make it interactive through simple codes.

Pre-Requisites:
Learners will not need to use any apps or websites beyond the standard zoom website. Students can use tabs or laptop for the class.
