CIRCULAR

Dear Parents,

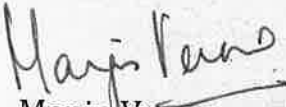

Greetings!

As you all must be aware, there has been a recent exponential increase in the no. of cases of conjunctivitis or eye-flu. The symptoms may include redness, itching and discharge from the eyes. Please note that it is highly contagious and spreads very rapidly.

Please follow these precautions to prevent the spread of conjunctivitis: -

1. It is advised to not send your ward to school if he/she is exhibiting any symptoms and until the symptoms are resolved.
2. Do not share any personal items such as towels, handkerchiefs etc. which could lead to cross-contamination.
3. Maintain good personal hygiene. Wash your hands frequently with soap and water.
4. Avoid rubbing or touching your eyes with dirty hands.

Your cooperation is highly appreciated!

Manju Verma

Principal
