CIRCULAR

Dear Parents,

Greetings!

Crowdfunding is a wonderful way for a child to learn empathy. It can teach them how they can leverage technology to make the world a better place. Students can also implement the skills learnt for their own projects in future. A certificate in crowdfunding can be a remarkable addition to a student's profile while applying to universities overseas. Additionally, any contributions made through crowdfunding platforms is eligible for exemption under section 80G.

In collaboration with www.fueladream.com, we are organizing two sessions on crowdfunding which will be conducted by Mr. Ranganath Thota (Founder of www.fueladream.com). The schedule is as follows:-

- Session -1 on Sep 25th, 2023:- Introduction to crowdfunding program
- Session-2 on Sep 29th, 2023:- A deep diving training session to explain the science behind the crowdfunding.

Both the sessions are of 1 hour each and students will be registering via an online link after the first session. Parental consent is required for registering for the campaign. All the student campaigns will be launched on Sep 29 at 8 PM. Each child has his/her own campaign which will run for 15 days and will only take 10 mins in a day.

Details of the campaign:-

Aim of the campaign is to provide back to school kits to underprivileged children in rural areas of UP. The campaign will be run with a NGO partner, Green Sole Foundation Mumbai.

The registration and participation in the campaign is free of cost.

Looking forward for your support!

Warm Regards

Manju Verma

Principal
