Title: The Assassin's Blade

By Sarah J. maas

15/12/23

The assassin's blade is prequel of Glass of Throne series. Celana Sardo Thien, one of the most feared killers across the continent has been sent on a mission to Skull's Bay with her archenemy Sam Cantland. But when they discover they been led by deception, the time will come for the team to go against the order of their master.

- What did I like about this book.

I really enjoyed this glimpse into Celana Sardo-Thien's character and what made her the person she is in the upcoming set of novels. I love how each of the different novel as showcase a different strength and trait. It was a great insight into who our heroine is and hopefully a speak into some of the other character we may encounter again in future book. My favourite character is Sam and I really loved the book.
