**1. Read the passage and answer the questions that follow.**

A smile is a universal language that transcends cultural and linguistic barriers. It is a simple yet a powerful expression that can convey warmth, kindness, and joy. When someone smiles, it not only lights up their face but also has the potential to brighten up the mood of those around them. It is a gesture that is easily understood and appreciated by people from all walks of life. **(Para 1)**

Smiling is contagious. When we see someone smile, our mirror neurons activate, compelling us to mimic the expression. This creates a positive feedback loop, cultivating a sense of connection and shared happiness. **(Para 2)**

Beyond the personal benefits, smiles play a crucial role in social interactions. They can serve as non-verbal communication, signaling friendliness and approachability. In various studies, people who smile are often perceived as more likable, trustworthy, and competent. Moreover, a smile can ease tension in challenging situations, making it a valuable tool in conflict resolution. In essence, the power of a smile extends beyond individual well-being to enhance social dynamics and create a more positive and harmonious environment. **(Para 3)**
