

International Day of Persons with Disability

Day / Date : 4 Dec 2023

“There is no greater disability in society, than the inability to see a person as more.”

World Disability Day is celebrated on 3rd December every year, aiming to promote an understanding of disability issues and mobilize support for the dignity, rights, and well-being of persons with disabilities. On this day, we celebrate the lives of persons with disabilities and salute their determination. The theme for World Disability Day this year “**United in action to rescue and achieve the SDG’s for, with and by persons with disabilities.**”

ITL Public School, as an inclusive school, believes in valuing, respecting and cherishing all young minds and acclaiming the strengths and limitations of all. Disabled people often remain on the fringes of society. Disability inclusion means making sure everybody has the same opportunities to participate in every aspect of life to the best of their desires. Every individual as a part of the society should focus on sensitising others towards the needs of differently abled people and remember that disability is not inability!

This year, along with acknowledging the needs of the disabled, we should all take a pledge towards inclusivity for the betterment of all
