

# Anti-Bullying Day

**Day/Date- Friday (2 Nov'23)**

**Venue- Classrooms: Oriented for– Students of classes I-XII**

ITL Public School organised an Anti-Bullying workshop on 2<sup>nd</sup> November 2023. It emphasised on standing up against bullying and supporting each other. It is a day to raise awareness and spread positivity. The workshop was carried perfectly by the school's Anti-Bullying club, and in a very interactive manner. The students were taught how much importance the day carries in terms of kindness and respect. The students of the club engaged their peers and their juniors in a very effective conversation while promoting awareness and teaching them how to stand firmly against any kind of bullying- physical, verbal, and cyber, by fostering a culture of acceptance and support. The school also organised awareness campaigns and a poster making competition on the topic, "NO PLACE FOR FEAR". Eye-catching posters and slogans were put all around the school to gather attention and deliver powerful messages to address the situation in a visual and concise way to help the school take one step forward. They successfully acted as an everyday reminder for the students. The school also provides for support systems for the victims, hence creating a more comfortable environment for them through these initiatives.

The programme was successful in boosting the confidence of our young learners and helped them be more mindful of their surroundings. The softboards carrying all the informative material played a very vital role in the same. By raising awareness, fostering empathy, and implementing preventive measures, the school is on its journey to create a society where bullying is unacceptable.
