

Harry and Hope (Sarah Lean)

Some friendships are meant to be, a story about family, friendship and belonging. Hope lives with ^{her} artist Mum in Pyreness. It's always been just two of them until Frank (a free spirited traveller) arrives with his donkey 'Harry'. Hope and Harry Frank form a close bond, so it's hard for both of them when Frank decides it's to move on. Hope questions what she is to Frank. He's not her dad, but he was more than just her Mum's boyfriend. Except, there's no name for that kind of pair. Hope promises to look after Harry & slowly another special pair is made. One that makes Hope realise that some friendships become part of you and even when someone is far away, they are always ~~sea~~ near to your heart. I really liked this book by great author 'Sarah Lean'. It's a nice story about making friends with animals and how they look each other. It was really easy to read.

Simple and heart lock touching story. You should will learn the importance of friendship in your's life.
