World Cancer Day

World Cancer Day is held every 4th February .This is an initiative taken by Union for International Cancer Control (UICC). It aims to prevent millions of deaths each year by raising awareness and educating about cancer. Every single person has the ability to make the difference and can make progress by uniting and reduce the impact of cancer

Arwachin Public School takes the initiative and unite with the entire world to fight against the global cancer epidemic.

World Cancer Day

Activity Movement of Earth

The earth moves two ways. It spins and it moves around the sun. The spinning of the earth is called rotation. It takes the earth about 24 hours, or one day, to make one complete rotation. And it produces Day and Night. At the same time, the earth is moving around the sun. This is called a revolution. It takes a little over 365 days, or one year, for the earth to make one full revolution around the sun. And it produces seasons. An interactive activity was designed especially for students to understand this interesting concept outside the classroom.

Activity Movement of Earth

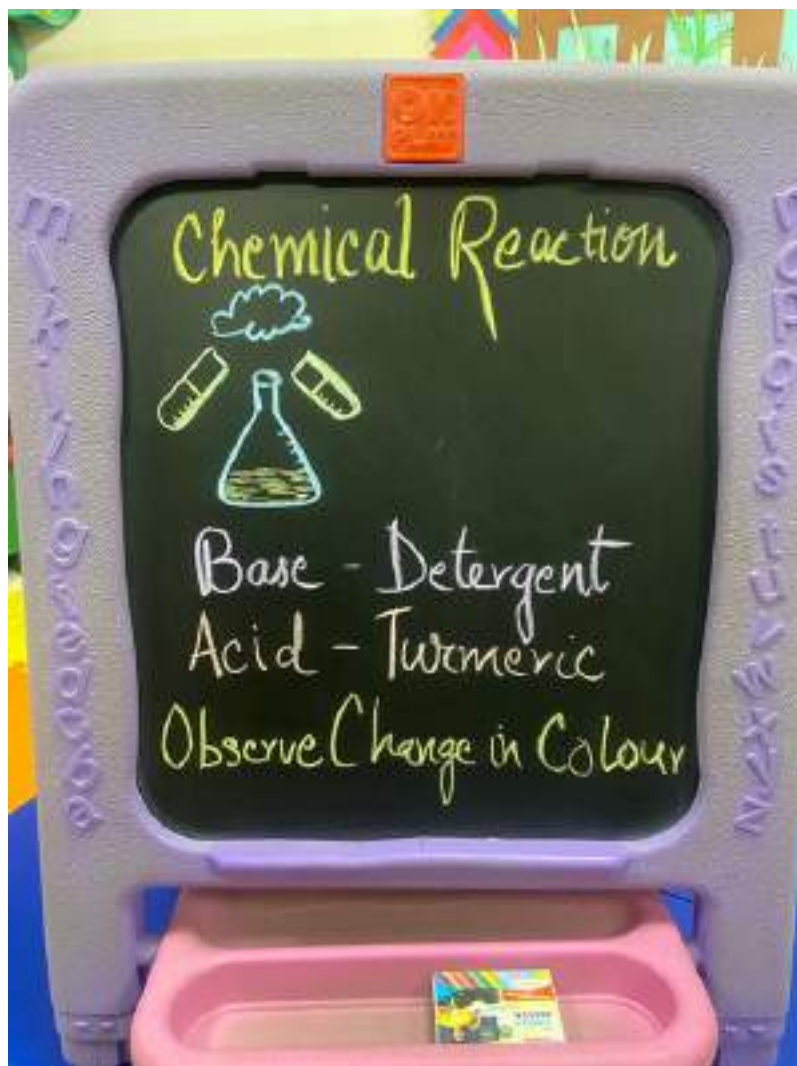

Activity Movement of Earth

Young scientists

Students of class 1 Learnt how chemical reaction occur when Turmeric is reacted with detergent and the colour changes from yellow to red

By observing chemical reactions, children were able to understand and explain how the natural world works. Chemical reactions turn food into fuel for your body, make fireworks explode, cause food to change when it is cooked, make soap remove grime, and much more.

Young scientists

Safer Internet Day

“Together for a better internet”

8th February is observed a day “Safer Internet Day. This is an initiative started by European Union(EU) to raise awareness of emerging online concerns like cyber bullying to social networking to digital identity. Let us join together to make internet a safer and better place for all.

Emotions are Important

Emotions are very important and complex aspect for humans. Today we conducted an activity 'Pick and Feel' to make the students understand about their negative and positive emotions that they feel in their daily life. Through this activity, they understand how to deal with the bad emotions in the life.

Poster Making Activity

National Emblem of India

The national emblem is the seal of the government of India. It can be seen on all government documents ,currency notes ,coins ,letters and envelops. Our national emblem has been adopted from Lion capital erected during Emperor Asoka's time at Sarnath ,near Varanasi in Uttar Pradesh. It has four lions facing four directions . This symbolises that these four Lions are the guardians of four directions. However only three lions can be seen at a time. The lions stands for courage and sacrifice . The base of the emblem shows a horse and a bull ,the horse symbolises energy and speed the bull symbolises importance of hard work. A wheel is seen between the horse and the bull. The words Satyameva Jayate which means 'truth only triumphs' are inscribed below the wheel. Each and every Indian is to follow this Moto.

Poster Making Activity National Emblem of India

Working of Electric Circuit

Class-6 Science

Activity: working of electric circuit and understanding the concept of insulators and conductors.

Electric circuit is a closed path of wires and electrical components which allows a current to pass through it. A simple electric circuit consists of a cell, torch bulb and two pieces of wire (called connecting wires).

The materials that allow electricity to flow through them easily, are termed as conductors, while the materials that do not allow electricity to flow through them easily, are known as insulators.

Students made an electric circuit and understand the working of it. They also inserted conductor (coin) and insulator (wooden pencil) to the source of electricity to understand the concept.

National Deworming Day

National Deworming Day is observed on 10th February. This initiative is taken by the Ministry of Health and Family Welfare, government of India to make every child in the country worm free. These worms and intestinal worms are also known as Soil Transmitted Helminths (STH). According to the World Health Organisation (WHO), children between 1 to 14 years are infected with this disease. Special assembly conducted on National Deworming Day to spread awareness.

International Day of WOMEN & GIRL in Science

International Day of Women and Girls in Science on February 11 allows us to honor women's significant achievements in science and place a much-needed focus on girls entering Science, Technology, Engineering, and Mathematics (STEM) careers. As the fastest-growing segment of jobs with employers finding it hard to find available talent, STEM needs women. Have some fun today by learning about women charting their course as techie trailblazers and by supporting young women to pursue their passions in STEM with finding them scholarships based on STEM studies only for women. Special assembly conducted on International Day of Women and Girls in Science Day to spread awareness.

HWPL ACTIVITIES

Arwachin Public School has officially signed an MOU with HWPL Peace Education Program - A PATHWAY TO PEACE.

The purpose of HWPL Peace Education is to train and educate people to become “citizens of peace” and “peace messengers” so that they can work together with HWPL to spread a culture of peace in all parts of the world. For this, HWPL developed peace education curriculum with 12 lessons, and its main theme is “heavenly culture.” “Heavenly culture” refers to a culture of peace, coexistence, and development that humanity creates together - transcending religion, idea, race, and nationality. Furthermore, finding a high level of spiritual value that can achieve peace and realizing that value on this earth is also “heavenly culture.” Neither the flourishing civilization of ancient Rome or China, the Renaissance that awakened human values, nor the Industrial Revolution which brought about high development have established a culture of peace on this earth. Since World War I and II in the 20th century, wars and disputes have continued throughout the world. In order to create sustainable peace, HWPL has made efforts to create “heavenly culture” through the 10 Articles and 38 Clauses of the Declaration of Peace and Cessation of War (DPCW) -

HWPL ACTIVITIES

an international legal instrument that ensures world peace and cessation of war - and the World Alliance of Religions' Peace (WARP) Office that promotes dialogue and harmony between religions by studying and comparing scriptures.

HWPL peace education curriculum developed with the theme of “heavenly culture”.

divided into two main parts. Lessons 1 to 4 begin with explaining the discovery of peace within nature that has enriched life for billions of years. Then, it explains the fundamental cause of war, which is human greed, and the restoration of human world order for the cessation of war. Lessons 5 to 12 explain about the values of peace that should be placed within each student’s heart and mind. Gratitude, consideration, sacrifice, forgiveness, etiquette, law-abiding spirit, courage, and more are important values needed to spread peace in this chaotic world. When such values are internalized and characterized within the students, then they become “citizens of peace” and “peace messengers,” which allow them to become “heroes of peace” that achieve world peace and leave it as a legacy for the future generations.

HWPL ACTIVITIES

We have conducted 6 Activities designed by HWPL Republic of Korea team under the Guidance of Mr. Jun Kin (Indian Co-ordinator) & Dr. Sakshi Sharma (Official Peace Educator & Global Speaker for PEACE), Ms Sudipta Sen , Ms. Ritika Ahuja (Certified Peace Educators).

These are as follows:-

1. Balloon up game
2. Team drawing
3. Eco-plogging (Activity details are in January Edition)
4. Secret angel game
5. King of gratitude
6. My value statement

Balloon up game Theme: Cooperation and Co-existence Thought: To establish harmony, different beings work together and coexist. Cooperation and co-existence are starting points for peace among humankind. Within the harmony nature has shown, the mechanism of cooperation and coexistence are the underlying factors. For diversity and harmony to be maintained, cooperation and coexistence are necessary elements. As roots work together to supplement the need of plant, in the same manner, each individual should work together to supplement each other's need in order to live together. In nature's original state diversity, harmony, cooperation and coexistence are the fundamental outlines of world peace.

Team Drawing Theme: Cooperation and Co-existence Thought: To establish harmony, different beings work together and coexist. Cooperation and co-existence are starting points for peace among humankind. Within the harmony nature has shown, the mechanism of cooperation and coexistence are the underlying factors. For diversity and harmony to be maintained, cooperation and coexistence are necessary elements. As roots work together to supplement the need of plant, in the same manner, each individual should work together to supplement each other's need in order to live together. In nature's original state diversity, harmony, cooperation and coexistence are the fundamental outlines of world peace.

Secret Angel Game Theme: Being Considerate of the Benefits of Others. Thought: Picking a secret friend and caring for a friend without being discovered that they are secret angel. Consideration is being thoughtful to others. The value of consideration is essential to create a peaceful organization with individuals and society. Secret Angel Game is called the Manito game or the Secret friend game too. Manito is the Spanish word that is the title when friends call each other in Spain. (Like hey). We need to restore the value of consideration in order to achieve a world of peace in face of increasing social problems caused by materialism and egoism.

HWPL ACTIVITIES

Find a "King of Gratitude" Theme: Being Grateful for Kindness and Grace. Thought: Remembering what has been given to me, and expressing gratitude for the things. Gratitude is the state of feeling grateful. When we reflect upon our lives and look around, there are countless things to be grateful for. Acknowledging kindness is the first step to 'Gratitude'. Building the habit of gratitude helps maintain peace within individuals, and expressions of gratitude help establish harmonious relationships among people. By actively sharing and expressing the power of gratitude we can build a world of peace.

Writing and presenting My Value Statement
Theme: Understand my value, influence and role.
Thought: To know the value of life and expressing the value of existence using value cards. The reason that all creations live in harmony is that they all have their own value of existence and aware of their role and duty. When one is 'existing' it means that one has uniqueness and independence. This activity has organized three words: "my value", "my influence" and "my role and duty". When all people find their own value, exert good influence on others and perform their own roles and duties faithfully, then this world will surely become a world of peace.

Newcomer Award

Arwachin Public School received **NEWCOMER AWARD** on 21.02.2023 for our dedication and hardwork in achieving world peace. Our principal Dr. Sakshi Sharma was the keynote speaker in Peace Education Seminar where ma'am emphasised on the importance and implementation of peace education to achieve world peace. Our student's talent and activities were displayed in main presentation and

Annual Day Celebration

Arwachin Public School, Vasundhara, Ghaziabad, celebrated its 23th Annual Day on the 19th of February, 2023. The theme of Annual Day was "Indian Heritage". Many eminent dignitaries were present at the annual day celebration, including Brahma Kumari Sister Yeshu, Shri SP Sharma Ji, Manager Arwachin Public School, Shri Anurup Sharma Ji, Chairman Arwachin Group of Schools. All the students and their parents were invited to this function. The program started at 11:00 a.m. with the lighting of the diyas by the special guests. In the first half of the program, senior students presented Saraswati Vandana. The students also paid a heartfelt tribute to The Founder of the School Late Shri Shrinivas Sharma ji, whom they fondly call Bauji with the commencement of the Director's Mr. Abhinav sharma speech. Soon after it, the Director and Principal jointly announced the publication of the School Magazine, "Parichay". Students were appreciated with awards and certificates. Teachers' talent was also well acknowledged and appreciated by honouring them with awards and certificates. Before the commencement of the second half of the program, the Headmistress of the school represented the school's annual report stating various activities conducted at the school monthwise. Students of class 7 and 8 performed Qawwali with great enthusiasm and joy.

Annual Day Celebration

The mind blowing performance got a standing ovation and much praise from the audience. From Montessori to Class 8, students entertained everyone with their beautiful dance, singing and drama performances on Indian Heritage. Soon after it, senior students performed a roleplay on Peace Education to spread awareness. Also, to promote health and fitness, senior students performed taekwondo with kicks, breaking the wooden planks and bricks with fire on. Soon after it, The Chief Guest and the Guest of Honour were asked to say a few words on the auspicious occasion. Soon after their speech, all the teachers paid tribute to Bauji with a mesmerising song. The parents kept cheering for their children who were performing on the stage. After four hours of grand performances by the students, the program ended with the Principal Dr. Sakshi Sharma proposing the vote of thanks and extending her warm regards to everyone present at the Annual Day function.
