**(PRINCIPAL)**

## ENGLISH

**“Books are the keys to endless worlds of imagination.”**

**Choose a book written by R.K. Narayan and talk about your favorite character in your school project. Describe things like what the character looks like, what they do in the story, and why you like them on an A4 size sheet. You can also mention any interesting adventures or challenges the character faces. Make it fun by adding drawings or pictures to show what you imagine the character to be like!**

**You can also refer to the stories and novels of R.K.Narayan given below.**

- A Shadow
- The Astrologer's Day
- A Horse and Two Goats
- Engine Trouble
- Malgudi Days
- Swami and Friends

## MATH

Angles play a crucial role in mathematics and various real-world applications. They provide a fundamental way to measure and describe the relationships between lines, shapes, and spatial configurations. Understanding angles is essential in geometry. Angles not only contribute to solving problems in navigation, engineering, and technology, but also they are fundamental in everyday tasks, such as construction, design, and even in the arts.

To understand better the foundational concept for developing angles let's try our hands to create a working model of angles.

Refer to the given YouTube link and make a model showing different types of angles .

<https://youtu.be/9m4UVeI44ZY?si=clATt0OHQKkgTVX9>

Also answer the following questions in math notebook

Q1. Look around your surroundings and identify objects that form right angle.  
(Any four)

Q2. Find objects or shapes that represent acute or obtuse angles in your home.

## SCIENCE

Solar energy is the energy that we obtain from the Sun. It is an unlimited source of energy. It doesn't pollute our environment as well. It is renewable, affordable and natural. We can use solar energy for many purposes.

A solar cooker is a device which uses the energy of direct sunlight to heat or cook food.

It is usually designed in the form of a simple box in which you place your food.

Make a solar cooker using a shoe box.

OR

Anywhere from four to seven times a year, our Earth, Moon and Sun line up just right to create the cosmic-scale shadow show known as an eclipse. An eclipse is a natural phenomenon that occurs when a celestial body blocks the light from a light source and casts its shadow on another celestial body.

- Create a 3D model of Solar/Lunar eclipse using the materials like cardboard/thermocool, ball, torch etc.

## **SOCIAL SCIENCE**

"India's forests are a canvas of nature's art, where every leaf tells a story, and every rustle echoes the symphony of biodiversity. In the embrace of these verdant realms, whispers of wildlife and the dance of ancient trees paint a portrait of harmony between man and nature, a tapestry woven by time itself."

"Create a table showcasing the different types of forests found in India. Include columns for the forest type, main tree species, and notable wildlife. Provide brief descriptions for each forest type, highlighting their ecological significance."

Prepare an assignment as follows on A3 size sheet.

Type of forest	Picture of forest	Main Trees	Wild life	Description of forest

Also answer the following questions in your Social science class notebook.

**Q1.** Write two ways in which forests are important for the environment.

**Q2.** Write one way in which deforestation is affecting the lives of people living in cities.

**Q3.** Suggest one way in which deforestation can be reduced.
